ERO Custody Management Division
Facility List Notes & Definitions

Monday, June 23, 2025

Notes and Assumptions:
The Facility List contains all facilities used by ICE ERO recorded in ENFORCE since the start of FY2003.
The Facility List Main tab is sorted descending by the current Fiscal Year Average Daily Population (ADP).
Facility inspection ratings referenced are all Final Ratings. New facilities with reviews in process will not have entries in the Authorized field.
All questions, concerns, and data updates should be directed to CM Taskings.

Tab Names and Definitions:	
Tab Name	**Definition**
Authorized Facilities	A facility, which is under contract and has an active, funded task order and has successfully completed an official ICE OPR inspection without two consecutive failures or submits a completed ORSA, as verified by CMD. Authorization requirements do not apply to Bureau of Prisons facilities.

All Facilities (Past & Current)	List of every facility that has been used. Encompasses historical and current data.
Summary Tables	Breakout of quick statistics on ADP, capacity, and utilization rates by AOR, type detailed, and guaranteed minimum facilities.
MIRP-ORR Facilities	List of all Office of Refugee Resettlement (ORR) and Mexican Interior Repatriation Program (MIRP) facilities.

Levels A,B,C,D	Indicates the individual classification levels of detainees at the facility. Detainee classification level is determined using the current fiscal year data. Detainee Classification Levels: Level A includes A and 1, Level B includes B and 2, Level C includes C, and Level D includes D and 3.
Population	
Population Count	The number of detained noncitizens present at a facility for the midnight count from the most recent data extract.
Date of Last Use	Most recent date a noncitizen was present for the midnight count.
Date of First Use	The first date a noncitizen was present for the midnight count.

Max Population Count (Current FY)	The largest population count for any day in the current fiscal year
Statistics	
ADP - Fiscal Year	The Average Daily Population (ADP) is calculated by taking the total midnight count for a given time period and dividing by the number of days in that time period.
Mandays	Each detained noncitizen present in a facility for the midnight count corresponds to one Manday. (based off the definition on the G-324 SIS)
Facility Avg Length of Stay	Facility Average Length of Stay (ALOS) is the average amount of time that individuals who have had a final book-out were detained in a particular facility. This is calculated by subtracting the book in date and time from the book out date and time for each detention ID, and then averaging the results for each facility.

Facility Bookins	The count of bookins (transfers) at the facility during the specified fiscal year.
Initial Bookins	The count of initial bookins at the facility during the specified fiscal year. Initial bookin is the first bookin for a period of detention
ADP: Mandatory Detention	The average daily population of individuals who are subject to mandatory detention. The Immigration and Nationality Act limits the discretion of ICE to release from custody certain categories of noncitizens under certain circumstances.

ADP: Detainee Classification Level	Upon admission and periodically thereafter, individuals are categorized into a security level based on a variety of public safety factors, and are housed accordingly. Factors include prior convictions, threat risk, disciplinary record, special vulnerabilities, and special management concerns. Detainees are categorized into one of four classes of security risk: A/low, B/medium low, C/medium high, and D/high.
Facility Statistics	
Calendar Days in Use	Indicates how many days in the fiscal year a facility has had one or more individuals present for the midnight count.
Calendar Days - FY to Date	Indicates how many days have passed in the current fiscal year
% of Days in Use	Indicates the percentage of fiscal year days in use to date
Max Population Count (Previous	The largest population count for any day in the specified fiscal year
Total Mandays	The sum of individuals from the midnight count for a facility for all days in the fiscal year.
Contractual Capacity	
Contractual Capacity	The number of beds at a facility allocated for ICE to use as stipulated in the contract or agreement.
Current FY Utilization	The current FY utilization rate is calcuated by dividing the current fiscal year ADP by the ICE contractual capacity.
GM Utilization Rate	Level at which a facility with a guaranteed minimum is being utilized (100% equals full utilization of the guaranteed minimum) calculated by dividing the current fiscal year ADP by the number of guaranteed minimum beds.
Guaranteed Minimum/ FOC	Guaranteed Minimum: A contractually defined number of beds at the facility that ICE must pay for on any given day. Facility Operating Charge: A monthly firm-fixed price ICE must pay for at a detention facility (FOC based on a contractually defined number of beds).
